

Values led

OUR WRITING

- Through our writing curriculum, children will be exposed to a rich, diverse range of genres which will explore our values of respect, optimism and kindness. We believe writing is a vital and lifelong skill that can open many more doors and possibilities in the future.

Inclusive

- All children have access to high quality stimuli which ensures each child is taught the skills required to write clearly, accurately and coherently. Through quality first teaching and regular assessment, each child's needs are met to ensure they reach their full potential.

Systematic

- The writing curriculum is carefully planned, sequenced and assessed to ensure pupils retain and build on their knowledge and skills year on year. We provide children with the opportunity to revisit previously taught genres of writing and build upon them allowing pupils to make connections between concepts.

Aspirational

- At Stanburn we provide exciting writing opportunities and experiences that engage and challenge our children. We guide and nurture each individual on their own personal journey to develop the skills needed to be a successful writer and learn without limits.

Believe Achieve Succeed - Learning without Limits
