

OUR FRENCH

As part of our teaching of French, we immerse the children in French culture developing respect, tolerance and an appreciation of communities different to themselves. We believe learning a MFL is a vital part of being a member of a multi-cultural society.

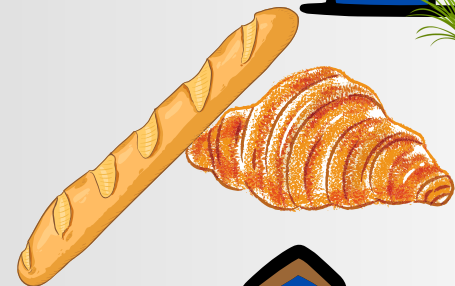

- All children in KS2, irrespective of ability, access a high-quality languages education where we strive to embed the skills of listening, speaking, reading and writing through a wide range of accessible activities including songs, stories and role play.

bonjour

The French curriculum is carefully planned and sequenced. We provide regular opportunities to revisit learning, building on previous knowledge and developing language and vocabulary in a range of topics and contexts.

- French will be used to develop a deeper awareness of their own language and culture and the differences and similarities between their own, British and French culture. In doing so we aim to strengthen their curiosity and knowledge of other cultures.
