

Jigsaw, the mindful approach to PSHE, is a progressive and spiral scheme of learning. In planning the lessons, Jigsaw PSHE ensures that learning from previous years is revisited and extended, adding new concepts, knowledge and skills, year on year as appropriate. The table below draws out the **spiral** knowledge and skills progression within all six Puzzles (units of work) including the key vocabulary used in each year group; explicit links to the DfE statutory Relationships and Health Education outcomes have been made in each Puzzle.

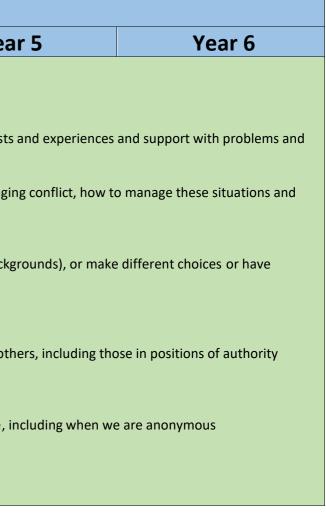

INTENT: Jigsaw holds children at its heart, and its cohesive vision helps children understand and value how they fit into and contribute to the world. With strong emphasis on emotional literacy, building resilience and nurturing mental and physical health, Jigsaw 3-11 properly equips schools to deliver engaging and relevant PSHE within a whole-school approach. Jigsaw lessons also include mindfulness allowing children to advance their emotional awareness, concentration, focus and self-regulation.

IMPLEMENTATION: Jigsaw 3-11 offers a comprehensive programme for Primary PSHE, including statutory Relationships and Health Education, in a spiral, progressive and fully planned scheme of work, giving children relevant learning experiences to help them navigate their world and to develop positive relationships with themselves and others.

IMPACT: This can be established through assessment identified in the key learning.

Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Yea
overview Being Me in My World	In this Puzzle (unit), the children learn about how they have similarities and differences from their friends and how that is OK. They begin working on recognising and managing their feelings, identifying different ones and the causes these can have. The children learn about working with others and why it is good to be kind and use gentle hands. They discuss children's rights, especially linked to the right to learn and the right to play. The children learn what it means to be responsible.	In this Puzzle (unit), the children are introduced to their Jigsaw Journals and discuss their Jigsaw Charter. As part of this, they discuss rights and responsibilities, and choices and consequences. The children learn about being special and how to make everyone feel safe in their class as well as recognising their own safety.	In this Puzzle (unit), the children discuss their hopes and fears for the year ahead – they talk about feeling worried and recognising when they should ask for help and who to ask. They learn about rights and responsibilities; how to work collaboratively, how to listen to each other and how to make their classroom a safe and fair place. The children learn about choices and the consequences of making different choices, set up their Jigsaw Journals and make the Jigsaw Charter.	In this Puzzle (unit), the children learn to recognise their self-worth and identify positive things about themselves and their achievements. They discuss new challenges and how to face them with appropriate positivity. The children learn about the need for rules and how these relate to rights and responsibilities. They explore choices and consequences, working collaboratively and seeing things from other people's points of view. The children learn about different feelings and the ability to recognise these feelings in themselves and others. They set up their Jigsaw Journals and establish the Jigsaw Charter.	In this Puzzle (unit), the children explore being part of a team. They talk about attitudes and actions and their effects on the whole class. The children learn about their school and its community, who all the different people are and what their roles are. They discuss democracy and link this to their own School Council, what its purpose is and how it works. The children learn about group work, the different roles people can have, how to make positive contributions, how to make collective decisions and how to deal with conflict. They also learn about considering other people's feelings. They refresh their Jigsaw Charter and set up their Jigsaw Journals.	In this Puzzle (unit think and plan for goals they could se themselves as well challenges they ma explore their rights responsibilities as their class, school, community and th live in. The children their own behavior impact on a group choices, rewards, o and the feelings as each. They also lead democracy, how it school and how th contribute towards the Jigsaw Charter their Jigsaw Journa

nit), the children or the year ahead, set for vell as the may face. They hts and as a member of ol, wider the country they ren learn about viour and its ip as well as , consequences associated with learn about it benefits the they can rds it. They revisit ter and set up rnals.

Year 6

In this Puzzle (unit), the children discuss their year ahead, they learnt to set goals and discuss their fears and worries about the future. The children learn about the United Nations Convention on the Rights of the Child and that these are not met for all children worldwide. They discuss their choices and actions and how these can have farreaching effects, locally and globally. The children learn about their own behaviour and how their choices can result in rewards and consequences and how they feel about this. They explore an individual's behaviour and the impact it can have on a group. They learn talk about democracy, how it benefits the school and how they can contribute towards it. They establish the Jigsaw Charter and set up their Jigsaw Journals.

Taught knowledge (Key objectives are in bold)	 Know they have a right to learn and play, safely and happily Know that some people are different from themselves 	 Understand their own rights and responsibilities with their classroom Understand that their choices have consequences 	 Understand the rights and responsibilities of class members Know about rewards and consequences and that these stem from choices 	 Know that the school has a shared set of values Know why rules are needed and how these relate to choices and consequences 	 Know their place in the school community Know what democracy is (applied to pupil voice in school) 	 Understand how democracy and having a voice benefits the school community Understand how to contribute towards the democratic process
	 Know that hands can be used kindly and unkindly 	 Understand that their views are important Understand the rights and 	 Know that it is important to listen to other people Understand that their 	• Know that actions can affect others' feelings	 Know how groups work together to reach a consensus Know that having a 	 Understand the rights and responsibilities associated with being a citizen in the wider community and their country
	Know special things about themselves	responsibilities of a member of a class	 own views are valuable Know that positive 	Know that others may hold different views	voice and democracy benefits the school community	 Know how to face new challenges positively
	 Know how happiness and sadness can be expressed 		choices impact positively on self- learning and the learning of others	 Understand that they are important Know what a personal goal is 	 Know how individual attitudes and actions make a difference to a class 	 Understand how to set personal goals Know how an individual's
	 Know that being kind is good 		 Identifying hopes and fears for the year ahead 	 Understanding what a challenge is 	 Know about the different roles in the school community Know that their own actions affect 	behaviour can affect a group and the consequences of this
					themselves and others	

• Know about children's universal rights (United Nations Convention on the Rights of the Child)

- Know about the lives of children in other parts of the world
- Know that personal choices can affect others locally and globally
- Know how to set goals for the year ahead
- Understand what fears and worries are
- Understand that their own choices result in different consequences and rewards
- Understand how democracy and having a voice benefits the school community
- Understand how to contribute towards the democratic process

Social and Emotional skills (Key objectives are in bold)	 Identify feelings associated with belonging Skills to play co- operatively with others Be able to consider others' feelings Identify feelings of happiness and sadness Be responsible in the setting 	 Understand that they are safe in their class Identifying helpful behaviours to make the class a safe place Understand that they have choices Understanding that they are special Identify what it's like to feel proud of an achievement Recognise feelings associated with positive and negative consequences 	 Know how to make their class a safe and fair place Show good listening skills Be able to work cooperatively Recognise own feelings and know when and where to get help Recognise the feeling of being worried 	 Make other people feel valued Develop compassion and empathy for others Be able to work collaboratively Recognise self-worth Identify personal strengths Be able to set a personal goal Recognise feelings of happiness, sadness, worry and fear in themselves and others 	 Identify the feelings associated with being included or excluded Be able to take on a role in a group discussion / task and contribute to the overall outcome Know how to regulate my emotions Can make others feel cared for and welcome Recognise the feelings of being motivated or unmotivated Can make others feel valued and included Can make others feel valued and included Understand why the school community benefits from a Learning Charter Be able to help friends make positive choices 	 Empathy for people whose lives are different from their own Consider their own actions and the effect they have on themselves and others Be able to work as part of a group, listening and contributing effectively Be able to identify what they value most about school Identify hopes for the school year Understand why the school community benefits from a Learning Charter Be able to help friends make positive choices Know how to regulate my emotions 	 Know own wants and needs Be able to compare their life with the lives of those less fortunate Demonstrate empathy and understanding towards others Can demonstrate attributes of a positive role-model Can take positive action to help others Be able to contribute towards a group task Know what effective group work is Know how to regulate my emotions Be able to make others feel welcomed and valued

		Physical Health and Well-Bein	ng – By end of primary, pupils sho	ould know:					
		Mental well-being (H2) that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations (H3) how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings (H4) how to judge whether what they are feeling and how they are behaving is appropriate and proportionate (H7) isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support (H8) that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being (H9) where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental well-being or ability to control their emotions (including issues arising online). Internet safety and harms (H13) how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private (H14) why social media, some computer games and online gaming, for example, are age restricted (H14) where and how to report concerns and get support with issues online.							
Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
overview Celebrating Difference	In this Puzzle (unit), children are encouraged to think about things that they are good at whilst understanding that everyone is good at different things. They discuss being different and how that makes everyone special but also recognise that we are the same in some ways. The children share their experiences of their homes and are asked to explain why it is special to them. They learn about friendship and how to be a kind friend and how to stand up for themselves if someone says or does something unkind to them.	In this Puzzle (unit), the children explore the similarities and differences between people and how these make us unique and special. The children learn what bullying is and what it isn't. They talk about how it might feel to be bullied and when and who to ask for help. The children discuss friendship, how to make friends and that it is OK to have differences/be different from their friends. The children also discuss being nice to and looking after other children who might be being bullied.	In this Puzzle (unit), the children learn about recognise gender stereotypes, that boys and girls can have differences and similarities and that is OK. They explore how children can be bullied because they are different, that this shouldn't happen and how they can support a classmate who is being bullied. The children share feelings associated with bullying and how and where to get help. They explore similarities and differences and that it is OK for friends to have differences without it affecting their friendship.	In this Puzzle (unit), the children learn about families, that they are all different and that sometimes they fall out with each other. The children practise methods to calm themselves down and discuss the 'Solve it together' technique. The children revisit the topic of bullying and discuss being a witness (bystander); they discover how a witness has choices and how these choices can affect the bullying that is taking place. The children also talk about using problem- solving techniques in bullying situations. They discuss name- calling and practise choosing not to use hurtful words. They also learn about giving and receiving compliments and the feelings associated with this.	In this Puzzle (unit), the children consider the concept of judging people by their appearance, of first impressions and of what influences their thinking on what is normal. They explore more about bullying, including online bullying and what to do if they suspect or know that it is taking place. They discuss the pressures of being a witness	In this Puzzle (unit), the children explore culture and cultural differences. They link this to racism, debating what it is and how to be aware of their own feelings towards people from different cultures. They revisit the topic of bullying and discuss rumour spreading and name- calling. The children learn that there are direct and indirect ways of bullying as well as ways to encourage children to not using bullying behaviours. The children consider happiness regardless of material wealth and respecting other people's cultures.	In this Puzzle (unit), the children discuss differences and similarities and that, for some people, being different is difficult. The children learn about bullying and how people can have power over others in a group. They discover strategies for dealing with this as well as wider bullying issues. The children learn about people with disabilities and look at specific examples of disabled people who have amazing lives and achievements.		

Taught knowledge	Know what being unique means	 Know what bullying means 	 Know the difference between a one-off incident and bullving 	 Know what it means to be a witness to bullying and that a witness can 	 Know that some forms of bullying are harder to identify e.g. tactical 	
_	 unique means Know the names of some emotions such as happy, sad, frightened, angry Know why having friends is important Know some qualities of a positive friendship Know that they don't have to be 'the same as' to be a friend Know what being proud means and that people can be proud of different things Know that people can be good at different things Know that families 					 Know exte support in e.g. Childlii Know that direct and Know what it is unacce Know that culture car source of c Know that spreading bullying or Know how different frichildren in world
	 can be different Know that people have different homes and why they are important to them 		has to play in this			
	Know different ways of making friendsKnow different ways					
	to stand up for myself					<u> </u>

Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year
overview Celebrating Difference	In this Puzzle, the children consider challenges and facing up to them. They discuss not giving up and trying until they have achieved their goal. The children are encouraged to think about jobs that they might like to have when they are older and are taught to associate what they learn now with being able to have the job they want. They also talk about achieving goals and the feelings linked to this.	In this Puzzle, the children talk about setting simple goals, how to achieve them as well as overcoming difficulties when they try. The children learn to recognise the feelings associated with facing obstacles to achieving their goals as well as when they achieve them. They discuss partner working and how to do this well.	In this Puzzle, the children explore setting realistic goals and how they can achieve them. They discuss perseverance when they find things difficult as well as recognising their strengths as a learner. The children consider group work and reflect on with whom they work well and with whom they don't. They also reflect on sharing success with other people.	In this Puzzle, the children look at examples of people who have overcome challenges to achieve success and discuss what they can learn from these stories. The children identify their own dreams and ambitions and discuss how it will feel when they achieve them. They discuss facing learning challenges and identify their own strategies for overcoming these. The children consider obstacles that might stop them from achieving their goals and how to overcome these. They reflect on their progress and successes and identify what they could do better next time.	In this Puzzle, the children consider their hopes and dreams. They discuss how it feels when dreams don't come true and how to cope with/overcome feelings of disappointment. The children discuss making new plans and setting new goals even if they have been disappointed. The class explore group work and overcoming challenges together. They reflect on their successes and the feelings associated with overcoming a challenge.	In this Puzzle, the chi their dreams and goa might need money to achieve them. They of that people they kno at the fact that some money than others a what types of jobs th do when they are old look as the similaritie differences between (and their dreams an someone from a diffe

children share goals and how they ey to help them ey consider jobs know do, they look ome jobs pay more rs and reflect on s they might like to older. The children rities and een themselves s and goals) and different culture.

Year 6

In this Puzzle, the children share their own strengths and further stretching themselves by setting challenging and realistic goals. They discuss the learning steps they will need to take as well as talking about how to stay motivated. The children reflect on various global issues and explore places where people may be suffering or living in difficult situations; whilst doing this, they reflect on their own emotions linked to this learning. The children also discover what they think their classmates like and admire about them, as well as working on giving others praise and compliments.

Taught knowledge	Know what a challenge is	 Know how to set simple goals 	• Know how to choose a realistic goal and think about how to achieve it	• Know that they are responsible for their own learning	 Know how to make a new plan and set new goals even if they have 	• Know about a range of jobs that are carried out by people I know	 Know their own learning strengths
(Key objectives	 Know that it is important to keep trying 	 Know how to achieve a goal 	Know that it is important to persevere	 Know what an obstacle is and how they can hinder achievement 	 Know how to work as part of a successful 	 Know the types of job they might like to do when they are older 	• Know what their classmates like and admire about them
are in bold)	 Know what a goal is Know how to set goals and work towards them 	 Know how to identify obstacles which make achieving their goals difficult and work out how to overcome them 	• Know how to recognise what working together well looks like	Know how to take steps to overcome obstacles	 Know how to share in the success of a group 	 Know that young people from different cultures may have different dreams and 	• Know a variety of problems that the world is facing
	• Know which words are kind	 Know when a goal has been achieved 	 Know what good group- working looks like 	 Know what dreams and ambitions are important to them 	 Know what their own hopes and dreams are 	 Know that they will need money to help them to 	• Know some ways in which they could work with others to make the world a better place
	 Know some jobs that they might like to do when they are older Know that they must 	• Know how to work well with a partner	 Know how to share success with other people 	 Know about specific people who have overcome difficult challenges to achieve 	• Know that hopes and dreams don't always come true	 Know that different jobs pay 	 Know what the learning steps are they need to take to achieve their goal
	work hard now in order to be able to achieve the job they want when they are older	 Know that tackling a challenge can stretch their learning 		 Know how they can best overcome learning challenges 	 Know that reflecting on positive and happy experiences can help them to counteract disappointment 	 More money than others Know that communicating with someone from a different culture means that 	• Know how to set realistic and challenging goals
	• Know when they have achieved a goal			 Know what their own strengths are as a learner 	 Know how to work out the steps they need to take to achieve a goal 	 they can learn from them and vice versa Know ways that they can support young people in 	
				 Know how to evaluate their own learning progress and identify how it can be better next time 		their own culture and abroad	

Social and Emotional skills (Key objectives are in bold)	 Understand that challenges can be difficult Resilience Recognise some of the feelings linked to perseverance Recognise how kind words can encourage people Talk about a time that they kept on trying and achieved a goal Be ambitious Feel proud Celebrate success 	 Recognise things that they do well Explain how they learn best Recognise their own feelings when faced with a challenge/obstacle Recognise how they feel when they overcome a challenge/obstacle Celebrate an achievement with a friend Can store feelings of success so that they can be used in the future 	 Recognise how working with others can be helpful Be able to work effectively with a partner Be able to choose a partner with whom they work well Be able to work as part of a group Be able to describe their own achievements and the feelings linked to this Recognise their own strengths as a learner Recognise how it feels to be part of a group that succeeds and store this feeling 	 Can break down a goal into small steps Can manage feelings of frustration linked to facing obstacles Imagine how it will feel when they achieve their dream/ambition Recognise other people's achievements in overcoming difficulties Recognise how other people can help them to achieve their goals Can share their success with others Can store feelings of success (in their internal treasure chest) to be used at another time 	 Have a positive attitude Can identify the feeling of disappointment Be able to cope with disappointment Can identify what resilience is Can identify a time when they have felt disappointed Can talk about their hopes and dreams and the feelings associated with these Help others to cope with disappointment Enjoy being part of a group challenge Can share their success with others Can store feelings of success (in their internal treasure chest) to be used at another time 	 Verbalise what they would like their life to be like when they are grown up Appreciate the contributions made by people in different jobs Reflect on the differences between their own learning goals and those of someone from a different culture Appreciate the differences between themselves and someone from a different culture Understand why they are motivated to make a positive contribution to supporting others Appreciate the opportunities learning and education can give them 	 Understand why it is important to stretch the boundaries of their current learning Be able to give praise and compliments to other people when they recognise that person's achievements Empathise with people who are suffering or living in difficult situations Set success criteria so that they know when they have achieved their goal Recognise the emotions they experience when they consider people in the world who are suffering or living in difficult circumstances

Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Yea
overview Healthy Me	In this Puzzle, children learn about their bodies: the names of some key parts as well as how to stay healthy. They talk about food and that some foods are healthier than others. They discuss the importance of sleep and what they can do to help themselves get to sleep. They talk about hand washing and why it is important. The class also discuss 'stranger danger' and what they should do if approached by someone they don't know.	In this Puzzle, the children learn about healthy and less healthy choices and how these choices make them feel. They explore about hygiene, keeping themselves clean and that germs can make you unwell. The children learn about road safety, and about people who can help them to stay safe.	In this Puzzle, the children learn about healthy food; they talk about having a healthy relationship with food and making healthy choices. The children consider what makes them feel relaxed and stressed. They learn about medicines, how they work and how to use them safely. The children make healthy snacks and discuss why they are good for their bodies.	In this Puzzle, the children learn about the importance of exercise and how it helps your body to stay healthy. They also learn about their heart and lungs, what they do and how they are very important. The children discover facts about calories, fat and sugar; they discuss what each of these are and how the amount they consume can affect their health. The children learn about different types of drugs, the ones you take to make you better, as well as other drugs. The children consider things, places and people that are dangerous and link this to strategies for keeping themselves safe.	In this Puzzle, the children look at the friendship groups that they are part of, how they are formed, how they have leaders and followers and what role they play. The children reflect on their friendships, how different people make them feel and which friends they value the most. The children also learn about smoking and its effects on health; they do the same with alcohol and then look at the reasons why people might drink or smoke. Finally, they learn about peer pressure and how to deal with it successfully.	In this Puzzle, the ch investigate the risks smoking and how it liver and heart. Like about the risks asso alcohol misuse. The range of basic first a emergency procedu recovery position) a contact the emerge when needed. The co investigate how boo portrayed in the me and celebrity culture about eating disord relationships with fo can be linked to neg pressures.

In this Puzzle, the children discuss taking responsibility for their own physical and emotional health and the choices linked to this. They learn about different types of drugs and the effects these can have on people's bodies. The children learn about exploitation as well as gang culture and the associated risks therin. They also learn about mental health/illness and that people have different attitudes towards this. They learn to recognise the triggers for and feelings of being stressed and that there are strategies they can use when they are feeling stressed.

Taught knowledge	Know what the word 'healthy' means	 Know the difference between being healthy and unhealthy 	Know what their body needs to stay healthy	Know how exercise affects their bodies	 Know that there are leaders and followers in groups 	Know basic emergency procedures, including the recovery position	 Know how to take responsibility for their own health
knowledge (Key objectives are in bold)	 Know some things that they need to do to keep healthy Know the names for some parts of their body Know when and how to wash their hands properly Know how to say no to strangers Know that they need to exercise to keep healthy Know how to help themselves go to sleep and that sleep is good for them Know what to do if they get lost 		 Know what relaxed means Know why healthy snacks are good for their bodies Know which foods given their bodies energy Know that it is important to use medicines safely Know what makes them feel relaxed/stressed Know how medicines work in their bodies Know how to make some healthy snacks 	 Know that the amount of calories, fat and sugar that they put into their bodies will affect their health Know that there are different types of drugs Know that there are things, places and people that can be dangerous Know when something feels safe or unsafe Know why their hearts and lungs are such important organs Know that their bodies are complex safe Know that their bodies are complex and need taking care of 			
					 reasons some people start to smoke Know some of the reasons some people drink alcohol 		can involve

Year 6

In this Puzzle, the children learn more about mental health and how to take care of their own mental well-being. They explore the grief cycle and its various stages, and discuss the different causes of grief and loss. The children learn about people who can try to control them or have power over them. They investigate online safety, learning how to judge if something is safe and helpful, as well as talking about communicating with friends and family in a positive and safe way.

		learn about people who can help them if they are worried or scared.	connected to others they don't know in many ways, e.g. through global trade. They investigate the wants and needs of other children who are less fortunate and compare these with their own. Children's universal rights are also revisited.	amicable.	use. Screen time is also discussed and children find ways to reduce their own screen time. This Puzzle aims to help children to be more discerning when viewing anything online or on social media.	
 Taught knowledge (Key objectives are in bold) Know that different responsibilities (jobs) Know some of the characteristics of healthy and safe friendships Know that friend sometimes fall of Know that unking words can never taken back and ti can hurt Know some reas why others get angry 	 family is different Know that families are founded on belonging, love and care Know that physical contact can be used as a greeting Know how to make a friend Know who to ask for help in the school community Know that there are lots of different types of families Know the characteristics of healthy and safe friends Know about the different people in the 	 and why it is important to share worry secrets Know what trust is Know that everyone's family is different Know that families function well when there is trust, respect, care, love and co-operation Know some reasons why friends have conflicts Know that friendships have ups and downs and sometimes change with time 		 Know some reasons why people feel jealousy Know that loss is a normal part of relationships Know that negative feelings are a normal part of loss Know that sometimes it is better for a friendship/relationship to end if it is causing negative feelings or is unsafe Know that jealousy can be damaging to relationships Know that memories can support us when we lose a special person or animal 	 Know that there are rights and responsibilities in an online community or social network Know that there are rights and responsibilities when playing a game online Know that too much screen time isn't healthy Know how to stay safe when using technology to communicate with friends Know that a personality is made up of many different characteristics, qualities and attributes Know that belonging to an online community can have positive and negative consequences 	 Know that it is important to take care of their own mental health Know ways that they can take care of their own mental health Know the stages of grief and that there are different types of loss that cause people to grieve Know that sometimes people can try to gain power or control them Know some of the dangers of being 'online' Know how to use technology safely and positively to communicate with their friends and family

SMSC Links: Every Jigsaw lesson from Early Years to upper primary offers opportunities for children's spiritual, moral, social and cultural (SMSC) development, and this is clearly mapped and balanced across each year group. Likewise, Jigsaw is designed to provide structured opportunities in every lesson to practise and enhance the five skills associated with the emotional literacy (self-awareness, social skills, empathy, motivation and managing feelings). At Jigsaw, we believe that these opportunities are vital for children's development, their understanding of themselves and others and in increasing their capacity to learn.

British Values: Jigsaw PSHE 3-11 supports the British Values of Democracy, Rule of Law, Individual Liberty, Mutual Respect and Tolerance of those of different faiths and beliefs. It has been mapped lesson by lesson against the British Values agenda.
